

ELEVATION REFERENCE MARKS

REFERENCE MARK	ELEVATION FEET (NGVD)	DESCRIPTION OF LOCATION
RM 1	1890.11	Mark set in top of a concrete post projecting 0.2 foot above the ground located 27 feet north of the centerline of an east-west section line road 0.5 mile north of a steel bridge over Prairie Creek, 325 feet east of the centerline of the north-south road, 194 feet east of a corner fence post on the top of a small rise 1.6 feet south of a fence.
RM 2	1876.39	Mark set in top of a concrete post projecting 0.2 foot above the ground located in the northeast corner of a Burlington Northern railroad crossing a north-south road, 140 feet north of the centerline of State Highway 2, about 48 feet north of the north rail of the track, 29 feet east of the centerline of the north-south road, 2 feet northeast of a corner fence post.
RM 3	1897.21	Mark set in top of a concrete post projecting 0.2 foot above the ground located in the northeast corner of a north-south road and State Highway 2 intersection, about 1.67 miles west along State Highway 2 from its crossing of the U.S. Government Railroad, 51 feet north of the centerline of the highway, 46 feet east of the centerline of the north-south road, 11 feet east of a corner fence post, 0.5 foot south of a fence.
RM 4	1882.64	Mark set in top of a concrete post projecting 0.2 foot above the ground located in the southeast corner of a north-south road and State Highway 2 intersection, about 1.35 miles east along State Highway 2 from its crossing of the U.S. Government Railroad, 55 feet south of the centerline of a gate, 34 feet east of the centerline of a north-south road, 2 feet northeast of a power line pole, 1.4 feet east of a fence.
RM 5	1893.16	Mark set in the top of a concrete post projecting 0.2 foot above the ground located in the northeast corner of a north-south road and State Highway 2 intersection, about 0.67 mile west along State Highway 2 from its crossing of the U.S. Government Railroad, 46 feet east of the centerline of the north-south road, 24 feet east of the centerline of the east end of a concrete pipe culvert, 11 feet east of a corner fence post, 1 foot south of a fence.
RM 6	1886.48	Mark set in top of a concrete post projecting 0.2 foot above the ground located in the northwest corner of a north-south road and State Highway 2 intersection, about 0.33 mile east along State Highway 2 from its crossing of the U.S. Government Railroad, 72 feet northeast of the centerline of the north end of a concrete headwall of a pipe culvert, 62 feet west of the centerline of the north-south road, 6 feet south of a fence.
RM 7	1887.66	Mark set in the top of a concrete post projecting 0.2 foot above the ground located in the southeast corner of a public road crossing about 2000 feet north of Burlington Northern tracks, 2400 feet south of Prairie Creek, 149 feet south of the centerline of the east-west road, 30 feet east of the centerline of the north-south road, 1.3 feet west of a fence.

*EXPLANATION OF ZONE DESIGNATIONS

ZONE	EXPLANATION
A	Areas of 100-year flood; base flood elevations and flood hazard factors not determined.
A0	Areas of 100-year shallow flooding where depths are between one (1) and three (3) feet; average depths of inundation are shown, but no flood hazard factors are determined.
A1	Areas of 100-year shallow flooding where depths are between one (1) and three (3) feet; base flood elevations are shown, but no flood hazard factors are determined.
A1-A30	Areas of 100-year flood; base flood elevations and flood hazard factors determined.
A89	Areas of 100-year flood to be protected by flood protection system under construction; base flood elevations and flood hazard factors not determined.
B	Areas between limits of the 100-year flood and 500-year flood; or certain areas subject to 100-year flooding with average depths less than one (1) foot or where the contributing drainage area is less than one square mile, or areas protected by levees from the base flood. (Medium shading)
C	Areas of minimal flooding. (No shading)
D	Areas of undetermined, but possible, flood hazards.
V	Areas of 100-year coastal flood with velocity (wave action); base flood elevations and flood hazard factors not determined.
V1-V30	Areas of 100-year coastal flood with velocity (wave action); base flood elevations and flood hazard factors determined.

NOTES TO USER

Certain areas not in the special flood hazard areas (zones A and V) may be protected by flood control structures.

This map is for flood insurance purposes only; it does not necessarily show all areas subject to flooding in the community or all planimetric features outside special flood hazard areas.

For adjoining map panels, see separately printed "Map Index."
